

2019年度第2回微粒子ナノテクノロジー分科会

The 2nd Technical Group of Fine Powder Nano-Technology

Tuesday, September **24**, 2019, 13:00 - 18:40

株式会社栗本鐵工所東京支社会議室 太陽生命品川ビル7階
Taiyo Seimei Shinagawa Bldg. 7F, Meeting Room, Tokyo Office, Kurimoto, Ltd.

Program

- 13:00-13:10 Opening, Coordinator
Prof. Hidehiro Kamiya, Tokyo University of Agriculture and Technology
- 13:10-13:50 **Prof. Guanghui Ma (馬光輝) (Language/Japanese)**
Institute of Process Engineering, Chinese Academy of Sciences
Introduction of "State Key Laboratory of Biochemical Engineering,
Institute of Process Engineering, Chinese Academy of Sciences"
- 13:50-14:40 Prof. Dan Wang (王丹), Chinese Academy of Sciences
Hollow multi-shelled structures particles: Synthesis and applications
- 14:40-15:00 Break
- 15:00-15:50 Prof. Wei Wei, Chinese Academy of Sciences
Biomimetic formulation engineering for anticancer therapy
- 15:50-16:20 Dr. Yufei Xia, Chinese Academy of Sciences
Manipulating cell transport for simultaneous systemic and gastrointestinal immune responses via oil-in-polymer particles
- 16:20-16:50 Dr. Hua Yue, Chinese Academy of Sciences
Exploration of 2D graphene oxide as advantageous biomedical delivery systems
- 16:50-17:00 Closing, Vice Coordinator Minoru Miyahara, Kyoto University
- 17:00-18:40 Post-seminar party (participation fee: 5,000 yen)

Prof. Guanghui Ma
